McGuire's

1911

University School

JOHN P. MCGUIRE, Principal.

Opposite Monroe Park, Richmond, Va.

Forty-seventh session opens September 18. Certificate admits to advanced standing at University of Virginia. Each boy has constant individual attention. Classes small. The average number in each class last year was eight.

At University of Virginia boys prepared here received eight degrees in 1907; seven degrees in 1908; five degrees in 1909, and five degrees in 1910. Only experienced university men engaged in Upper School. Lower School with separate rooms and instruction for little boys. All teachers give the whole of their time to the work of this school.

Professor Fitz Hugh, of University of Virginia, writing August 16, 1909, says: "McGuire's University School is one of the very finest types of Southern private schools for preparation for college, and stands to-day in the very prime of its working efficiency. The students from McGuire's are uniformly successful in the Latin classes at the University. I can recommend this school without reserve."

Prof. Echols, of the U. Va., writing August 20, 1909 says: "Especially in mathematics have the boys from McGuire's distinguished themselves at the University, exhibiting a careful and thorough preparation which has made them marked men in the classes."

"During the past ten years no less than forty-five have been entered from the school directly into the senior bachelor of arts course in mathematics, and their uniform success in this course speaks in unmistakable terms of the thoroughness of their preparation."

"It is one of the few schools in Virginia in which the old-time thoroughness of preparation is carefully maintained."

Dr. J. M. Page, Professor of Mathematics and Dean of the University of Virginia, writing September 13, 1909, says: "For about ten years it has been my duty to pass upon the preparation of students entering the University, and it is only fair to say that in no case have I found that a student entering with the McGuire recommendation proved later to be deficient in the subjects for which he was recommended. I have no hesitation in saying that any parent should consider himself most fortunate who has the opportunity to enter his son at McGuire's."
